

Michurinsk State Agricultural University

Michurinsk State Agricultural University (Tambov region, Russia) is looking for organizations and educational institutions as partners to apply for Tempus IV programme in accordance with regional priorities for the Eastern Neighbouring Area in projects that focus on the development of international relations.

The university is one of the oldest Russian agricultural institutions of higher education. It has become well-known due to its unique scientific research in the sphere of horticulture.

It was organized on the initiative of Ivan V. Michurin in 1931 as a Fruit- and Vegetable Growing Institute and in 1999 the institute was given the status of university.

Nowadays Michurinsk State Agricultural University has 12.000 students and the academic staff of 600 people. The university today provides the courses in Fruit- and Vegetable-Growing, Viticulture, Selection and Genetics of Agricultural Crops, Forestry and Landscape Architecture, Horticulture, Commodity Research and Goods Expertise, Techniques of Producing and Processing Agricultural Products, Zootechnics, Techniques of Catering, Safety of Technological Processes in Food Production, Workplace Safety, Agronomy, Advertising and Public Relations, Agricultural Economics.

We would be glad to find partners interested in the Tempus IV multi-country project focused on the following aspects of international relations development:

- Identifying and continuing the best practices of the work of International Relations Departments;
 - Enhancing mobility of university academic and administrative staff through the improvement of foreign language proficiency in professional communication;
- Organizing an interdepartmental centre that will coordinate international relations in professional spheres;
- Academic and administrative staff training on Bologna Requirements.
- Working out a set of modules for language proficiency training in professional communication and providing e-learning opportunities for university staff and agricultural specialists.
- Organizing a multi-country network for developing international connections among agricultural universities.
