

Samara Academy of State and Municipal Management (Samara, Russia) is interested in participating in Tempus projects especially in the fields of life-long education, information technologies, economics, foreign languages and also in tourism sphere.

Our Academy realizes twelve major educational programs of higher education: «Finance and credit», «Economics and Management», «State and municipal management», «Personal Management», «Socio-cultural service and tourism», «PR», «Land Cadastre», «Applied Informatics in Management», «Psychology», «Management of organizations», «Jurisprudence», «Accounting, analysis and audit», and six bachelor programs: «Psychology», «Economy», «Management», «Applied Informatics in Management», «Land management and cadastre», «Tourism».

The educational process in academy is provided with the active and productive use of modern information technologies, media products and resources. More than 66% of our staff are doctors and candidates of sciences.

We are interested in the international cooperation, establishing long-termed contacts with foreign educational institutions, international organizations, funds.

We can also offer follow topics for international cooperation:

1. Effective use of information and communication technologies in the realization of modern educational programs in economics and management.
2. Effective use of information and communication technologies in the realization of modern educational programs for foreign languages.
3. Development of educational programs for business foreign language courses for specialists in Tourism based on Moodle-technology.
4. Formation and development of a high school media center as one of the ways to increase the quality of education in the context of informatization the modern educational environment.
5. Formation of hermeneutic competence of students and graduate students as one of the key competence for life-long education.
